During an emergency situation, SOS will act in concert with you and your corporate authorized contact person as needed to monitor events in the country or region of concern, to analyze the situation, and, if necessary, to assist in formulating and carrying out an action plan.

What is security evacuation assistance and coordination?

The SOS Security Division will assist you in the event of threatening situations such as civil and/or political unrest, insurrections, revolution or similar situations by providing information, guidance, and resources in the event personal safety and security can no longer be assured.
